My strength is imagine concepts inside my mind without any computer, pen and paper about Mechanical product and part. Imagine and modifications of concepts inside my mind for more than several decades. Crafting animation and movie inside my mind when I was School student, imagine business plan and cultivating ideas inside mind. My brain has been damaged brutally after I received job offer from Mr Steve Jobs of Apple Inc, at Titagr, 24 Paranas North, West Bengal-India, in Port Blair Lane, near house of Mr Arnab Sadhukhan son of Mr Ashok Sadhukhan in between 2003 to 2004. When I received Job offer letter from Rado Watch Company Switzerland-2003, my brain was damaged brutally in Delhi Railway Station while submitting work permit for Switzerland. Last 9 years regularly 24x7 Criminals are damaging my brain using cyber and were less weapon. In 2008 in July-August brutal life taking attack inside Salt lake sector five, I lost my brain and people tried to make me humanoid by printing electronic chip inside my brain. However God saved me each and every time I lost my life due to attack. Innovation using simple mechanism is my strong ability to design a concept of product which can serve larger purpose for human civilization. Twitter: "sanchayan4u"
