

Cover Letter

I am interested in exploring career opportunities in your organisation, where I can grow myself by continuous upgradation of new technology and increasing performance. I want to be part of a team where I will be able to learn, contribute and enjoy my work and at the same time add value to my organization.

I am a technological enthusiast and continuously learning in engineering and other field. Innovation and concept design is my strong point, however verymuch interested in entrepenourship and business management.

My innovative and successful career has centered around product development of passenger car, multiutility vehicle, truck, bus, tractor and electric locomotive. Also have exposure in product classification in PLM.

I have been associated with TCS, Mahindra and Mahindra, Eicher Engineering Solution and Hindustan Motors.

Also I had got the appointment from Tata Motors Engineering Research Center and Jhondeere Technology Center (Pune) however not able to serve them due to unfinished assignment from different organisation.

I have 20 years of industry experience in the field of

1. Vehicle integration.
2. Mechanical control system.
3. Sheetmetal component development.
4. Cabin development.
5. Concept development.
6. Value Engineering.
7. Ergonomics and occupant packaging.
8. Prototype building.
9. Servicing of vehicle.
10. Vehicle type approval and homologation.
11. Engineering project management.

After you have reviewed my resume, I would appreciate the opportunity to discuss my credentials and how I might contribute to your organisation.

Waiting for your response and consideration.

Thanking You.
Sincerely

Sanchayan Ghosh,
C/O Soumen Sarkar
